

CHFN psycho social counselling,
october 2016 edition

Introduction

Just like previous months, CHFN conducted the psycho social programmes to the orphanages around the country, this month, there was a festival and the program was more or less not as compared to previous months. The activities and visits slowed down because of various reasons.

This month's details and visit records are in the spreadsheet with the list of volunteers. We also co-operated with CIF Nepal (community Infrastructure forum Nepal), Kavre. The location was far away from the valley.

Programme done:

- Discussion about the home and children with Contact person.
- Introduction with children
- Singing songs by students and from us
- Chart Presentation (Mentally Healthy and Unhealthy)
- Game
- Drawing
- Game
- Final discussion

Findings and Conclusion:

It was wonderful time spend with all the students. We feel great to share some ideas about the psychoeducation and conduct some other activities with the students. All the students enjoyed to our program and asking us for our next visit.

Thank You !!!!!
